PROPOSAL

25X1

24 March 1961

CONFIDENTIAL

Under Task Order CC, this company recently prepared a
prototype

25X1

25X1

A requirement has recently arisen for a number of these devices and at the Project Officer's request, this company proposes to undertake the fabrication in quantities of 6, 15, or 25 each. The items will be copies of the above prototype,

25X1

Since this is basically a developmental production, it is suggested that such a program be written on a CPFF basis to cover a four months' working period. As we have recently completed the production of 50 the cost estimates have been written both to include fabrication and as government furnished material.

25X1

25X1

Routine monthly progress reports will be furnished during the fabrication of the items. In the event that drawings for this unit are required as part of the delivery, a separate cost estimate has been provided.
